1. Mass LEGAL Immigration In Canada

Despite what many think, ***LEGAL*** immigration into Canada is actually a much larger threat than illegal aliens, given the true scale of the replacement that is happening. What was founded as a European (British) colony is becoming unrecognizable due to forced demographic changes. There are also social, economic, environmental and voting changes to consider. See this Canadian series, and the UN programs for more detail. Politicians, the

media, and so-called “experts” have no interest in coming clean on this.

3. Why Cover This Topic?

It is a commonly repeated globalist talking point that Canada’s population is falling, and that more immigration is needed to keep it going.

While it is true that EUROPEANS are not having enough children to replace themselves, that is not true of other groups, or of Canada in general. In fact, Canada’s population is naturally growing bigger. That is to say, it is increasing at a few hundred people per day, even when deaths are factored in.

People pushing for more and more immigration never really give a satisfactory answer as to ***WHY*** it is needed. Claims of funding pensions and economic growth are often cited, but that seems to be a poor long term decision if the culture and makeup of the nation fundamentally breaks down.

Of course the real goal is to replace the (European) stock, culture and heritage. And while those in charge aren’t (yet) killing those European descent outright, mass migration dilutes the voting strength and leads to electoral changes.

Worth noting however, a significant portion of these births likely are the result of birth tourism. Still we should focus on Canadian births instead of immigration.

4. Canadian Births, Deaths, Since 1991

Note: Difference = Live Births – Total Deaths
Note: Per Day = (Difference)/365 or 366

Year	Birth	Deaths	Diff	Day
1991	402,533	195,569	206,964	567
1992	398,643	196,535	202,108	552
1993	388,394	204,912	183,482	503
1994	385,114	207,077	178,037	488
1995	378,016	210,733	167,283	458
1996	366,200	212,880	153,320	419
1997	348,598	215,669	132,929	364
1998	342,418	218,091	124,327	341
1999	337,249	219,530	117,719	323
2000	327,882	218,062	109,820	300
2001	333,744	219,538	114,206	313
2002	328,802	223,603	105,199	288
2003	335,202	226,169	109,033	299
2004	337,072	226,584	110,488	302
2005	342,176	230,132	112,044	307
2006	354,617	228,079	126,538	347
2007	367,864	235,217	132,647	363

2008	377,886	238,617	139,269	381
2009	380,863	238,418	142,445	390
2010	377,213	240,075	137,138	376
2011	377,636	243,511	134,125	367
2012	381,869	246,596	135,273	370
2013	380,323	252,338	127,985	350
2014	384,100	258,821	125,279	343
2015	382,392	264,333	118,059	323
2016	383,102	267,213	115,889	318
2017	379,450	276,689	102,761	281
2018	375,390	283,706	91,684	251

In every single year there are hundreds more births per day than there are deaths. While the averages do vary, the result is still overall growth.

Although in the available data, it has dropped form 567 per day to 251 per day at the ends, the reality is that Canada's population is naturally getting bigger. No immigration is needed for this growth to happen.

5. More Canadian Children, Less Abortion

Canadian women abort about 100,000 babies per year. If those children had actually been allowed to live, the growth in Canada would be nearly double what it naturally is. All that is required is to view and treat them as people, instead of as inconveniences.

Also, is growth really necessary? Sometimes overcrowded areas would benefit from less children. But that it rarely discussed. While Canadians are told the population is dropping, that is not the case, at least not overall.

Immigration is not needed to grow Canada's population.

Yet it is pushed on us.

Less Canadian children.

Abort Canadian babies.

Birthrates decline.

Import a replacement population.

Connect the dots.
